Description:

It is made of high quality materials and comfort of use is guaranteed even during long-hour use, thanks to its construction and ease of regulation, allowing users to adjust it accordingly to their needs. The Voice UC28-35 will check perfectly whether you work remotely or in a busy office. Moreover, due to its additional features, not only will it provide a lifelike conversation experience, but will also guarantee excellent music playback. Alongside regular call management buttons, such answer and end calls, volume adjustment and mute, the ergonomie USB pilot has been equipped with an additional Audio button which allows the user to adjust acoustic properties accordingly to ensure the best quality of sound, depending on whether they are having an important business conversation or enjoying their favorite music track. The headset has been optimized for a majority of operating systems, so you can easily connect with your clients and partners around the world. The Plug & Play technology allows immediate device detection by your PC.
